

Cohesive Clear & Co-Ex Films

Clear and Co-Ex films provide tear, puncture and water resistance to your packages!

Pack & Guard™ Cohesive Film

Pack & Guard™ Cohesive Films are the perfect packaging material when tear, puncture and water resistance are necessary. Clear LDPE is the most common film used when visibility of the contents is important. Looking for a secure, tamper resistant packaging product? Then our Co-Extruded Silver/White film is an excellent product to use when the sender prefers to guard the contents of the package until the receiver opens it. Tinted, opaque White and Co-Ex Silver/White films are also available for applications such as fulfillment and mail order (soft goods, pharmaceutical, and shoes).

Pack & Guard™ Cohesive Film Capabilities

- Film thicknesses from 1.2 - 10 mil
- Various film types available (Including: Low, Linear-Low, Medium, High Density PE's, Co-Ex White/Silver, Black/White films, Opaque White and Tinted Films are also available)
- Widths from 3" to 80"
- Roll lengths up to 5,000' (Contact us if you have special roll lengths requirements)
- Perforations available in both machine and cross-machine directions
- 1 or 2 color printing available
- 1 or 2 color "Surface Printing" available on Co-Ex, White or Colored films
- Strip coating in the machine directions
(We can create "returnable" cold seal packages!)
