

Surface Guard™

Single Face Corrugated Solutions

Surface Guard is a quality and service oriented manufacturer of protective packaging products. Not only does Surface Guard manufacture a diverse line of adhesive coated protective films, we also manufacture the most extensive line of cohesive "cold seal" products in the industry, not to mention we are a full service corrugator of single face and now Wave Flute corrugated materials. We have multiple corrugating lines that allow us to produce quality and custom A, B, E and Wave Flute single face materials. Looking for rolls or sheets, kraft or colors, Surface Guard can do it all. Surface Guard has the capabilities to produce standard, cohesive coated or colorful single face materials to meet your requirements.

Unleash Your Creativity with Wave Flute & Single Face

Surface Guard is experienced in supplying a wide range of customers with single face corrugated solutions tailor-made to their unique requirements. Below are some examples of single face & wave flute corrugated.

Creative Corrugated Solutions

- Boxes & Cartons
- POP & POS Displays
- Gift Boxes, Bags & Pillow Packs
- Decorative Packaging
- Retail Packaging

Single Face Corrugated Solutions

"We Can Do That", is a popular mantra around Surface Guard and it is reflected in our capabilities to provide you customized solutions for your single face and wave flute requirements. Need A, B, E or Wave Flute? We can do that! Looking for bogus, standard or a special/unique paper grade? We can do that! Does your application call for kraft/natural, bleached white, or colored papers? We can do that! We have a full range of capabilities to handle just about any of your single face corrugated needs.

Single Face Corrugated Capabilities:

- A Flute - 3/16" flute height provides crush resistance, stacking strength and  shock absorbency
- B Flute - 1/8" flute height provides more rigid support & higher resistance to flat  crush than A flute
- E Flute - 1/16" flute height provides highest resistance to flat crush while also  providing an outstanding printing surface for direct print or litho-laminations
- Wave Flute - Unique fluted pattern provides an attractive, eye appealing, and versatile  packaging product
- A,B, E Flute available in sheets or roll form (Widths - 3" to 84")
- Roll lengths from 50' to 1200' (Dependent upon flute profile)
- Sheeting capability (min: 12"W x 12"L)(max: 64"W x 72"L)
- Wave Flute available in sheet form
- "Bogus", Standard and Specialty paper grades available
- Scored or perforated rolls and sheets
- 2 color printing is available
- Flexo-Printed colored papers are available

Specialty Single Face Solutions

- Coffee Sleeves
- Cosmetic & Perfume Liners
- Bakery & Confectionery Liners

- Build Ups
- Furniture Protection
- Corner/Edge Protection
- Trailer & Pallet Wrap
- Litho-Laminations
- Base Wrap
- Interleaving Sheets

Wave Flute Corrugated

Surface Guard has introduced Wave Flute single face back into the USA. Now in addition to our A, B & E Flute single face materials, we can also manufacture the unique and eye catching Wave Flute in a variety of colors and sizes. Wave Flute has a flute height close to that of E Flute, however the flutes don't take the usual straight approach across the paper; rather it has a unique cross-directional "wave" pattern that is surely eye catching and one of a kind. The unique profile of wave flute creates an instant eye catching effect sure to draw attention to whatever gift, product, & presentation package or display it is used for.

Wave Flute Capabilities

- Sheet Size: 29.5"W x 40"L
- 50 Sheets per Case
- Minimum of 4 Cases (*You can mix & match cases of colors*)
- Contact us for more information

Flexo - Printed Colors

New at Surface Guard is our capability to flexo-print (flood print) our liners and mediums in a variety of standard or custom colors. This provides a unique and colorful option for decorative, presentational and specialty packaging applications. SG flexo-printed colors are a bright and vivid color option with lower minimum requirements compared to the high priced and high minimum (required) vat dyed papers. Not to mention SG flexo-colors are brighter and bolder compared to the often dull, mottled look of vat dyed papers. Since SG does all our printing in-house, our lead times on colors are shorter than having to source other papers. We can corrugate our colored papers into A, B, E and Wave Flute single face and also our Cohesive Cold Seal B & E Flute corrugated.
